CSHARK Works With Renga –
Canadian Brand Strategy and
Design Studio

2019-09-27 04:45:05

CSHARK is a Wroclaw - based company specializing in custom, dedicated programming solutions, IT consulting and outsourcing

The company directs its services to foreign markets, where for many years it has been creating and developing software for the financial sector in cooperation with the Irish company Fenargo. Based on knowledge, experience and unique competences, **CSHARK** provides the highest quality software tailored to the individual needs of the client. The company employs over 200 people in offices located in Wroclaw, Katowice and Bielsko-Biala.

CSHARK creates solutions for companies dealing in financial services, capital markets, as well as for corporate banks. They create and develop advanced systems that allow financial institutions for quick adjustment to legal and tax regulations, optimization of internal processes, detection of activities related to money laundering, verification of clients or legality of financial operations.

More about the company's offers on the [CShark](#) website

Renga is a brand strategy and design studio from Toronto. Their clients range from startups to seasoned companies. Renga isn't just focused on building new brands but rather focused in telling better stories with proper design and messaging, establishing business for decades to come. CSHARK will help to achieve that goal on technological level, offering software development and IT consulting services. We will offer solutions for startups (like MAKO - a rapid software development platform) and software development enterprise solutions.
