Zbyszko

2019-07-10 20:51:25

The Zbyszko Company was established in 1993 in Poland. We specialize in production of soft drinks, carbonated and non-carbonated beverages, flavored and spring waters. We own two modern factories that are equipped with the latest technologies available for the FMCG industry

Our company prides itself on paying the highest attention to both aesthetic visual appearance and in the quality and safety of our products. We would like to emphasize that they contain no artificial sweeteners, aromas or preservatives as aseptic technology is used during the manufacturing process. The high quality and safety has been guaranteed by the implementation of the HACCP and BRC systems. We are pleased to inform you that our brands have gained a huge recognition and position on the Polish market which encouraged us to consider the expansion abroad by exporting our products. Our products have been meeting with fantastic approval on foods exhibition and we strongly believe that in a few years our brands will be recognizable worldwide.

Have a quick look on our factories by clicking the link below
